

Tithing

Tithing is a requirement of this course because we want you to see change and not just read about change.

Not only is tithing is the fastest way we know to unblock the fears that are holding you back but giving is the single most powerful practice to activate the Law of Circulation because giving and Receiving are two aspects of the same principle. You can't have one without the other.

Most people just "wait to get" and as you probably have discovered, that approach doesn't work very well!

Many people struggle with the idea of tithing. It is seen as something negative, as a way for organizations or churches to get money by using guilt and obligation, and therefore tithing has been misunderstood. Used properly, it is a powerful activator of abundance, circulation and flow.

This is why we, at the Teachers of God Foundation, are requiring tithing for the duration of this 7-week Prosperity Course, but we're giving you the freedom to decide where the tithe goes!

We simply want you to experience the practice of giving.

How Tithing Works:

Tithing literally means "a tenth". For every dollar and dime that comes to you, you acknowledge that it came from God. Rejoice and feel excited! Then give 10% to where you are being spiritually fed. It could be your church, a friend, an author, the Teachers of God Foundation or perhaps even a fellow student. Whoever God has sent to open up your heart most recently. Give to whomever has fed your Spirit - the Truth of you. That's tithing.

Tithing 10% is a great way to find out first-hand, directly, that you have a storehouse of treasures from God to give.

Tithing

Tithing also has great potential to move you out of your comfort zone and the power to bring up all that is hidden and buried in your subconscious mind, like anger, doubt, rage, guilt and judgment.

This should excite you a little because you get to see the thoughts that have been there all along. It is ONLY these thoughts that are causing stagnation and blocking you from both giving AND receiving.

In the beginning, ten percent seems like a lot (and totally not do-able) and it will probably be the scariest thing you've ever done if you you have never given money to anything other than your own survival: bills, food, gas, clothes, your car, meals out, yourself and your family's needs.

It's not human nature to give money with no expectation of reward or return. We're not taught to give a portion of our income away to where we are uplifted and inspired.

Giving money is the fastest way we know to bring up buried fear. Why would you be afraid to give actual dollars? Because you do not know God or your Self, the Christ within. You still believe in an old thought system of separation that you have to take care of yourself.

Most people don't know they have an unlimited supply that comes from within. We falsely think money comes from outside of ourselves – from our jobs, from the government, from other people, from the lottery, from luck. We think it comes from working hard, from earning it, from being creative, from a college degree, from years of hard labor, from being better than other people, being first in line, having the best credentials and a whole lot of other ideas in the mind. Those are merely channels for which God works.

It's a powerful way to free you from the notions of separation such as "I" and "mine".

When you give, you are praising God for his goodness and for all of the gifts that come to you every day. It becomes such a beautiful way to live.

You become a giver to life.

Tithing

Generously giving from a place of trust will completely shift your vibration and it is Law that we always get the effects that match our vibration. You will no longer be blocking your abundance with your own meaningless fears.

It is not a “gift”. You don’t concern yourself with how the receiver spends it. It’s not about giving to those in “need”. Certainly don’t tithe because you think you have to. It is about complete trust in God as your source.

So, if you get \$10, you give \$1. If you receive \$55, you tithe \$5.50. If you receive \$2,079.00, you give \$200.79. If you receive \$8000.00, that’s \$800.00. Simple math.

You acknowledge and thank God and not expecting anything back in return. Just living in the flow, in gratitude and generosity, knowing (THIS IS IMPORTANT) that you are a rich child of God and there is an endless supply. And you get to keep 90%!

What could be better?

Yes, you will be pushed out of your comfort zone. It may feel awkward or scary. That’s ok. Do it anyway with your inner guide to look at any fear or judgement around it because if you believe you don’t have the ability to give, True Prosperity is lost to you.

Money’s only purpose is a tool for your awakening so be giving and generous now. Nothing will come to you until it comes THROUGH you. It comes through you when you say, “it’s time”.

The goal here is not to make money or acquire things but to attain the consciousness in Christ through which substance can flow forth naturally.

You will see that you can absolutely trust God but how can He catch you if you won’t fall backward?

We want you to know-REALLY KNOW-that everything you need and want in this world to fulfill God’s plan comes to you easily and effortlessly, before you even ask.

Tithing

Imagine having no fear around money. Imagine having no cares and no concerns. Imagine that you are a rich child of a very loving Father and that every time you give, more comes back to you.

Giving connects you with God. Be giving and generous now. Serve now. Enter into Divine Flow now. The more you set this intention, the easier and more fun it becomes.

You are putting into action that God is your source.

**If you are giving to “get” or if you’re having judgements or grievances about giving, notice your judgments. Notice the fear. Notice any worry or upset. Notice if you’re angry. Notice if you have a thought, “I need this money because there’s not enough.” That’s an active vibration going on IN YOU.

JUST NOTICE

THIS IS YOUR RELEASE.

When the feeling is recognized, ask your Guide to look at the fear with you. That’s it! Keep doing this and you will begin to see the change from fear to Love, peace and knowing you are always, ALWAYS being taken care of.
